What you should know:

★	The services offered under Medicaid are different in each state.
★	To provide Medicaid services to a child, the new state must open a Medicaid case for that child.
	If your child is eligible for state-funded adoption assistance, and you move to Hawaii, Illinois, Nevada, New Hampshire, or New Mexico, your child will not receive Medicaid under the adoption assistance program. However, your child may be eligible for medical assistance in these 5 states under a different program such as:
★	• Children's Health Insurance Plan (CHIP) http://www.medicaid.gov/Medicaid-CHIP-Program-Information/By-Topics/Childrens-Health-Insurance-Program-CHIP/Childrens-Health-Insurance-Program-CHIP.html • Supplemental Security Income (SSI) http://www.ssa.gov/pgm/ssi.htm
★	States can open a Medicaid case and services can be provided <u>before</u> a Medicaid card has been issued. (i.e., in an emergency situation)
★	If your child needs medical treatment or prescriptions before you receive a Medicaid card or confirmation that a Medicaid case has been opened in your new state, contact the ICAMA office* in your adoption assistance/guardianship assistance state for help.
★	Annual re-determinations of eligibility for Medicaid are not required for children eligible for title IV-E Adoption Assistance/Guardianship Assistance. If you are asked to complete information for a redetermination of Medicaid eligibility contact the ICAMA office* or your worker in your residence state.
★	You may be contacted by the ICAMA administrator in your new residence state for additional information.
